## **MONKEE MACHINE**

Once the 20d standard is officially released, we will get to work on developing a unique system for 20d NFTs.

---

The MONKEE MACHINE aims to allow users to deposit their MONKEE IOU token into the system and get 1 MONKEE NFT (picked at random) to be sent back to them. The MONKEE IOU tokens that are collected from this transfer will be burned and removed from supply.

---

Once all MONKEE IOU tokens have been claimed for an NFT, the total supply of MONKEE IOU tokens will be 100% burned.

## **MONKEE MERCH**

**MONKEE MONKEE** aims to build out an apparel brand that reaches across the globe. Starting off with a collection of t-shirts that are designed, printed and shipped, all in house. Everything is custom & made to order.

The image features a pixel art style background. The top half is a solid light blue sky with several white, pixelated clouds of various shapes and sizes. The bottom half shows a ground layer with a thin strip of green grass on top of a thicker layer of brown dirt. The text is centered in the middle of the sky.
